This Summit will focus upon the many “treasures” that we as a worldwide Uchinaaguchi community have that are in need of preservation, protection and perpetuation. Past historical and current events have led to our language, culture, land and water facing a multitude of challenges in their very survival and continued existence. Please join us for the **8<sup>th</sup> Annual LooChoo Identity Summit** which will include our keynote speaker, panelists, small and large group discussions on these very important issues.
